Advertising Opportunities

"Val Brustad who was nominated in 2020 for Defining Inspiration. After Val's wife passed away he stepped into her place as an Alzheimer's Association support group facilitator. Rather than focusing on his loss, Val focused on the needs of others--on how he could step in and be of service. Each person involved in the support group attests to how Val's words, his vulnerability, his wisdom has shaped their perspective to the disease, caregiving and grief. It is this influence and ability to leave a mark that inspires those around him to be more forgiving to themselves, get up, and fight another day."

As we transition to a virtual world we must adapt and offer additional opportunities within this virtual platform. We will be hosting a flipbook on our website, and distributing to our supporters.
