

Home Health Care & Home Care Agencies

available for private hire

The agencies listed here are fee-based services. Generally, they will charge by the hour, with varying rates for different types of needs you have.

The services they provide are listed in separate columns. If the agency offers a given service, there will be an “X” in that column for that agency.

Most agencies require a minimum amount of time per visit to provide services (shown in the far-right column of the chart). In addition, there may also be an initial assessment fee. As with all such charges, each agency has its own fee schedule, and will provide that information upon request.

Although most agencies on our list are licensed and bonded with the State of Washington, this status can change at any time. For your own protection, ask for verification when you speak with the agency.
